HOW IT WORKS

A guest simply posts a review using the SAYLII app by taking a video, speaking, or writing their review. They can share on facebook, twitter and they get a thank you coupon to use when they come for another visit.

The hotel can sync the reviews whenever they want with the tap of a button. They can choose what sites they would like to sync with (Facebook, Twitter, Foursquare, YouTube, LinkedIn.) Plus, hotels can access analytics and coupon management to manage the review process.
